WHELEN MARINE EMERGENCY

STROBE LIGHT SYSTEMS AVAILABLE IN 4 MODELS

The Whelen Marine Strobe is a condenser discharge xenon strobe light which produces over one million peak candlepower per flash 360° all around your boat to attract attention in an emergency when visibility is down. The xenon flash penetrates fog, smoke or haze like no other light source.

Standard color is white for coastal waters. Whelen Strobe Lights are also available in yellow (amber) for inland waterways. See Code of Federal Regulations, Title 33, parts 80.16 and 95.29.

The price of the emergency systems ranges from \$150.00 and up.

For further information and brochure concerning the Whelen Marine Strobe Lights, write or call us at (203) 526-5308.
